TECHNOLOGIES

• Programming Languages

Java, JavaScript, C, C++, Python

• Web Backend Development

php, Asp.NET, Spring Boot

• Database Technologies

MySQL, MongoDB, PostgreSQL

• Web Frontend Development

React, HTML, CSS, React Js

• Tools & Technologies

Git, GitHub, Arduino, Azure

SKILLS

- Communication
- Project Management
- Team Collaboration
- Leadership
- Problem-Solving
- Decision-Making

About Me

Software Engineering enthusiast with strong skills in web development, object-oriented programming, database management, and cloud deployment. Experienced in designing scalable, user-friendly applications using React.js, .NET, Laravel, MySQL, PostgreSQL, and Azure. Key projects include an Event Discovery Platform with 3-tier architecture and modules for RBAC, job postings, quiz analytics dashboards, and secure RESTful APIs documented with Swagger.

PROJECTS

Event Discovery Platform (Web Application)

- **Technologies:** **Laravel, MySQL, React.js**
- Developed a web-based Event Discovery Platform using PHP (Laravel) for backend development, MySQL for relational database management, and React.js (JavaScript, JSX) for the frontend.
- Designed and implemented a modern 3-tier architecture, built RESTful APIs with Laravel, created optimized database schemas for efficient event management, and developed a responsive React.js interface for event exploration, registration, and management.
- Implemented key features such as user authentication, event CRUD operations, and real-time data updates, ensuring a seamless and scalable user experience.

Evelora – Role-Based Assessment Platform (Web Application)

- **Technologies:** **React js, ASP.NET, PostgreSQL, Azure**
- Developed and enhanced multiple modules using React.js (JavaScript, JSX) for dynamic frontend interfaces, ASP.NET (C#) for backend services, PostgreSQL for relational database management, and Microsoft Azure for cloud deployment.
- Implemented Role-Based Access Control (RBAC) to manage user permissions and streamline assessment workflows.
- Built a job posting module that allows recruiters to create, update, and manage job listings stored in PostgreSQL with transactional consistency.
- Developed a quiz results analysis module using React.js dashboards and PostgreSQL stored procedures, enabling real-time performance insights and data visualization.
- Designed and secured RESTful API endpoints with ASP.NET, documented them using Swagger (OpenAPI) for seamless integration with client applications.

VOLUNTEERING

- Overhaul 4.0**
Marketing Team Member
Aiesec,University of Moratuwa
- Innovators**
Marketing And PR Team
Aiesec,University of Moratuwa
- Member**
Information Management Team
Aiesec,University of Moratuwa
- OTM 3.1**
Organizing Committee
Aiesec,University of Moratuwa
- HackElite 1.0**
Delegate Committee
IEEE WIE, University of Moratuwa
- ICITR International Conference**
Graphic Design Team
- EXMO 2023– University of Moratuwa**
Event Coordinator

CERTIFICATES

- Introduction to Career Skills in Software Development
Linkedin Learning

ACHIEVEMENTS

- CodeRush (Hackathon)
Participant

AUTOMATED HYDROPONICS SYSTEM DEVELOPED WITH ARDUINO

- Technologies: C++ (Arduino IDE)**
- Designed and implemented an automated hydroponic system using Arduino Mega for the first-year hardware project.
- Developed and programmed the system using C++, integrating sensors to monitor and regulate water levels, pH, and nutrient supply, automating plant care.
Implemented real-time data processing and control logic in Arduino, optimizing agricultural efficiency through automated adjustments and sensor-based decision-making.

EDUCATION

2023–Present

BSc(Hons) Information Technology and Management

University of Moratuwa

Technology Modules:

- OOP and programming
- Data Structures & Algorithms
- Database Systems
- Web & Application Development
- Software Engineering

GCE A/L Examination

2021

Maliyadeva Girls College Kurunegala

- Chemistry – B
- Biology – C
- Physics – C

GCE O/L Examination – Passed with 9As

2017

Maliyadeva Girls College , Kurunegala

- Mathematics – A
- English – A
- Science – A
- ICT – A

EXTRA CURRICULAR

Creative Design Pillar Member

2023–present

FIT Moments, the Official Media Unit Of Faculty of Information Technonlgy,University of Moratuwa

2023–Present

Ingoing Global Volunteer Team member

Aiesec,University of Moratuwa
