📍 Kurunegala, Sri Lanka

About Me

I'm an Information Technology and Management undergraduate excited to gain hands-on experience in software development and programming. I'm skilled at using technology to create efficient and reliable solutions. I enjoy working in a team and have strong problem-solving abilities. I'm looking forward to applying my knowledge and passion in a Software Engineering internship.

Projects

Evelora

Second Year Group Project

A comprehensive recruitment solution designed to streamline candidate evaluation through skill- and role-based assessments. Developed using **React.js**, **Tailwind CSS**, **ASP.NET Core (C#)**, **Entity Framework Core**, and **PostgreSQL**, the platform features role-based user management, automated assessments, analytics dashboards, and **Azure** cloud integration. Focused on improving hiring accuracy, engagement, and process efficiency.

[Github Repository-Frontend](#)

Event Discovery

First Year Individual Project

A full-stack web application enabling users to explore, register, and manage events efficiently. Built with **React.js**, **Laravel (PHP)**, and **MySQL**, featuring **RESTful APIs**, user authentication, event CRUD operations, and real-time data updates. Designed using a 3-tier architecture for scalability, responsiveness, and smooth system communication.

AUTOMATED HYDROPONICS SYSTEM

First Year Hardware Project

An **IoT-based** smart farming solution developed using **Arduino Mega**, integrating DHT22, pH, TDS, and UV sensors for real-time monitoring of environmental conditions. Automated temperature, humidity, and nutrient control using actuators such as fans and dehumidifiers to optimize plant growth through intelligent sensor-driven automation.

Skills

Programming Languages

- Javascript
- Python
- PHP
- Java
- C
- C++

Backend Development

- Springboot
- ASP.NET
- Laravel

Frontend Development

- React
- HTML
- C
- CSS

Databases

- MySQL
- PostgreSQL
- MongoDB

Tools & Technologies

- Github
- Figma
- Azure
- Postman
- Arduino

Education

BSc(Hons) Information Technology and Management University of Moratuwa Cumulative GPA - 3.23	2023-Present
GCE A/L Examination Maliyadeva Girls College, Kurunegala	2021
- Chemistry- B - Biology - C - Physics - C	
GCE O/L Examination - Passed with 9A's Maliyadeva Girls College, Kurunegala	2017
- Mathematics - A - English - A - Science - A - ICT-A	

Volunteering

Creative Design Pillar Member FIT Moments, Official Media Unit Of Faculty of Information Technology, University of Moratuwa	2023-Present
Ingoing Global Volunteer Team member Aiesec in Colombo South	2023-Present
ICITR International Conference- Graphic Design Team Member University of Moratuwa	2024-2025
Overhaul 4.0-Marketing Team Member Aiesec in Colombo South	2023-2024
Innovators- Marketing And PR Team Member Aiesec in Colombo South	2024-2025
Information Management Team Member Aiesec in Colombo South	2024
HackElite 1.0- Delegate Committee Member IEEE WIE, University of Moratuwa	2025
OTM 3.1-Organizing Committee Member Aiesec in Colombo South	2024

Soft Skills

- Communication
- Project Management
- Team Collaboration
- Leadership
- Problem-Solving
- Decision-Making

Certifications

- Introduction to Career Skills in Software Development**
Linkedin Learning

Achievements

- CodeRush (Hackathon)**
Active Participant

Languages

- Sinhala
- English
